The activities of urban life are so intense, the pursuit of wealth or of pleasure so absorbing as upon the one hand to breed an indifference to public affairs; while upon the other, the expenditures are so large, the value of the franchises at the disposal of the clamor for a crown of laurels for the first possible date. charachies at the disposal of the cities so great, and the opportunities for illicit gain so manifold, that the municipal legislators, whose standard of honeaty is rarely higher than the average of those who select them, fall an easy prey to the designing and unscriptions. Franchises which cought to be freely granted in the interest of the public are withheld till those who are supposed to be most immediately benefited will consent to pay for them; gross favoritism is shown in the assessment of property for taxation; great corporations are permitted to encumber the streets and endanger the lives of citizens; while every form of vice which can be made to pay for the privileges is secretly tolerated.

WHENCE THESE WILD WORDS!

The Sunday Ercise law was enforced as much as .. could be enforced yesterday, but what was done in reference to the complaint made the other day by Internal Revenue Collector Vol. 36 No. 12,396 Grosse, that the offense of street-walk ing has increased on Third avenue, between Ninth and Twenty-third streets during the last four weeks to an alarm ing extent, and that the law prohibit ing it is not "enforced" even a "little." Mr. Grosse complained that the in difference of the police is this respect was "simply unpardonable negligence," especially in view of the fact that decor ducks and stoor pigeons are employed to induce people to violate the Sunday liquor law.

The complaint caused a whirlwind of indignation in Mulberry street. Commissioner Parker, who believes every policeman is a bribe-taker, for self or for his superior, said that Collector Grosse was a lunatic with degenerate brain. President Roosevelt thought Mr. Grosse's friends ought to get out a writ ' de lunatico inquirendo.' and threatened to hit the Collector "a smash" between the eyes in the shape of a reply.

Mr. Grosse's letter might have been more polite, but did he tell anything but the truth? And should a Commission, so strongly pledged to the strict enforcement of every law, grow wild with rage because their attention is drawn by a citizen to a law which he says they do not enforce?

To Iron Piques.

C. T. Dazey writes from Haines Falls that he has eliminated from his play. "The War of Wealth," the labor idea, which incongruously predominated in the production. In speaking of the matter yesterday Mr. Dingwall, who is Jacob Littis representative, remarked that the public disliked any stage attempt to make capital out of the troubles between capitalists and the workingmen. So that "The War of Wealth" will, therefore, have an entirely new second only knows how. They should be ironed while evenly damp over flannel herefore, have an entirely new second Primrose & West's Minstrels will open their season at Utica. N. Y., on Aug. 17. The company will carry seventy people all told, whites and blacks, producing minstrelsy from its birth to the present day. One especial feature will be an original production by W. H. West, of the firm, entitled "The Vanishing Grenadiers." The production of this act alone will cost in the neighborhood of 510,000; the lighting effects were brought from Europe; Percy Gaunt is writing the music. Joseph Garland is the manager for the company.
